

Crop-wise Application Guide for Faster Results

At Vel Organics, we recognize that every crop has unique nutritional needs. Our **organic formulations are scientifically tailored** to deliver faster, healthier and more sustainable results across a wide range of crops.

FOM

Crop	Total applications per year (sum of stages)	Each Time	Total FOM per year(/acre) - SUM
Banana	3	1000	3
Coconut	3	1000	3
Fruit Crops	3	700 KGS	2
Maize	2	1000	2
Paddy	3	700	2
Vegetables	3	700	2

LFOM

Crop	Total applications per year (sum of stages)	Each Time	Total LFOM per year(/acre) - SUM
Banana	4	10	40
Coconut	4	8	35
Fruit Crops	4	12	50
Maize	2	15	30
Paddy	3	12	35
Vegetables	2	20	40

Tip for Faster Results

For even quicker impact, combine our fertilizers with **LFOM at a 1:50 dilution** or add **1% molasses during irrigation**. This synergy accelerates microbial activity, improves nutrient absorption and delivers visible improvements in both soil and crop performance.
